

## WEEK 1

### Aim

To create an ATS-friendly resume webpage using basic HTML elements.

### Description:

This experiment demonstrates the creation of a structured resume using basic HTML. The webpage includes personal details, contact information, career objective, educational qualifications, technical skills, work experience, projects, certifications, strengths, languages known, and declaration. HTML elements such as headings, paragraphs, lists, tables, images, and horizontal lines are used to organize the resume.
